

THE MID-EASTERN SKATEBOARD SERIES
PRESENTS

MESS 84

**SCHEDULE
OF
EVENTS**

So far the **Mid-Eastern Skateboard Series** is shaping up great for 1984. We have full backing from many of the major companies, now all we need is you. The first two contests are ready to happen. The second and third have been changed from the original schedule, because the E-town ramp in Kentucky is just being completed and they need a little extra time. The Johnson City skaters are ready with their ramp so that will be number two. Freestyle will also be held at that contest. The fourth contest that was originally scheduled for Indianapolis has been cancelled. **Chip Jones** said their new ramp is almost finished, but the land owner is not too keen on having a contest. The finals are still looking for a place to happen also. There are some new ramps going up in Nashville so that may be one possibility. If you are building a new ramp or know of a ramp that we could have a contest on, let me know about it. We will try and have an awards banquet or something to that effect after the last contest. There will be one more breif update after the second contest to let you what is happening. The last two contests should be decided by then.

All contests will be held on Saturday with Sunday as the rain or continuance day.

There will be three different classes; sponsored, unsponsored 1A, and unsponsored 2A. A small jam will be held before unsponsored begins to determine 1A and 2A.

A entry fee of \$2.00 will be charged at each contest. This will go to the contest hosts to help cover expenses. Prizes will be plentiful so nobody will walk away empty handed. Sticker slams will be mandatory this year.

If you have any questions, comments, or suggestions, start writing before it is too late.

This brochure is published by **SKATENN** productions. If you would like additional copies, send one (1) stamp per issue to **SKATENN, 314 W. Hutchinson Dr., Smyrna, TN 37167**. Special thanks to **Jim Goodrich** for helping out on productions costs.
